

Kayan Bible App (copyright Kayah Baptist Association) Privacy Policy

The Kayan Bible Team (Kayah Baptist Association) produces and publishes apps in the Kayan language for educational and spiritual enrichment purposes. This Privacy Policy is to help you understand what, if any, data we collect as a result of you using one of the apps we publish and what we do with that data.

What access to your device does the app need?

The apps need access to read/write to your device's storage (memory) space, including memory cards, e.g., SD card. This allows for a download of the audio reading of audio books to be stored on the local device and played while the app is running. The user has the option to give permissions for this to happen or not.

What information might we collect?

Any app may or may not collect the following type of non-personally identifiable information:

1. Type of device (e.g. Samsung S3).
2. Version of operating system (e.g. Android 8.0).
3. City/Country where connected to internet (e.g. Bangkok, Thailand).
4. Book(s) read.

If analytics for the app is enabled and the device is connected to the internet, the app will connect from time to time to send usage information to a Google Analytics account. If the app does not connect to the internet, the analytic data is not collected. The apps do not collect any personally identifiable information (PII). PII is any information regarding a natural person, a legal person, an institution or an association, which is, or can be, identified, even indirectly, by reference to any other information, including a personal identification number.

What do we use your information for?

Any of the information we collect from you may be used primarily to gauge how many people use the app and where they are using it. Secondly, it may be used to improve our application to better support our users, wherever in the world they are located.

How do we protect the information we collect?

We take appropriate security measures to protect against unauthorized access to or unauthorized alteration, disclosure or destruction of data. This includes internal reviews of our data collection, storage and processing practices and security measures, and physical security measures to guard against unauthorized access to systems where we store data.

Do we disclose any information to outside parties?

We do not sell, trade, or otherwise transfer data we collect to outside parties. This does not include trusted third parties to assist us in operating our app store account, conducting our service, or servicing you, so long as those parties agree to keep all information confidential. Your Consent By using the apps, you consent to our privacy policy.

Changes to our App Privacy Policy

If we decide to change our app privacy policy, we will post those changes on this page and update the App Privacy Policy modification date below.

This policy was last updated on January 29, 2021.
